Control Box Dimensions

Overall Dimensions:

- E...10.5" (26.7 cm)
- F...7.3" (18.4 cm)
- G...9.2" (23.4 cm)

System Requirements and Installation

The Pivotal Edge is designed to be installed with as few tools as necessary. Only common tools are required to install the cover and make the required connections. The majority of assembly is completed before the lid is delivered.

The only external connections required to install the Pivotal Edge are a tie to the trailer's air supply and a connection to a continuous 12 volt power supply.
